

For now, I have not changed the version of the plug-in,
in the previous version in line 151 changed em win32 to win64
(I wrote that I have Windows 11 64bit 24h2)

```
150 # NOTE: extend paths correspondingly if yc
151 if sys.platform in "win64":
152     candidate_paths = [
153         Path.home() / "Documents",
154         Path("C:/Users/zbign/Documents"),
```

On line 181 it says f "tmpNik_HDR.jpg"

Now a message appears:

But in Temp it is
